 - 1-1/4" round
 - 1-1/2" round
- Custom Back: Customer service will quote actual die charges after review of design.

EXCLUSIVE! KEY FILE PROGRAM

Your customers won't have to worry about maintaining registered keytag files any more.

For an additional \$0.25(C) per keytag, PROVIDENCE will manage your customer's registered keytag files. The keytag owner simply needs to fill out the card completely and mail it to us. Providence then enters the information into a database designed specifically for your customer. Upon request, your customers can receive a printout of their database. If someone finds a lost registered keytag and drops it into a mailbox, it will be returned to us. Since we have the keytag owner's information on file, we mail the keys directly to the rightful owner at no cost.
